EXPERIENCE

Ontoast Ltd.

Web application development - Senior

December 2018 - Present

Manchester (UK)

- Nowadays, I perform as a *PHP* programmer and carry on developing and maintaining web applications from *Laravel* over *Wordpress* to *Symfony*. Passion and experiences constantly grow, time relentlessly marches on and my attention is focused on Javascript-based technology.

Webpagesoftware Ltd.

Web application development - Junior

December 2016 - November 2018

České Budějovice (CZ), Manchester (UK)

- I could deeply delve into programming and gathered new knowledge thanks to all experiences gained in the previous year. I put myself into the work and devoted myself to *Laravel* framework and also found interest in *October CMS*. Furthermore, in the course of those wonderful times, I acquired advanced knowledge of usage of *GIT*, *Composer*, *NPM* and other tools that are essential for a developer.

Larx s.r.o

PHP programmer & Web application maintenance

February 2015 - November 2016

České Budějovice, (CZ)

- After college I didn't know which way to go, nevertheless, fate led me to an IT start-up where I got in touch with real development. I was put into a position of programmer and laid the foundation for ensuing progress and passion. I became acquainted with PHP scripting language and started developing application based on CMS Wordpress. As everything was new to me, I invested significant time into learning of HTML/CSS utilized by preprocessor SASS.

PROFILE

- Simplicity and humbleness bring balance, freedom, and joy into my life. I seek out calmness, silence, and solitude. I'm very impulsive and emotional human being. Gathering knowledge and self-awareness is a necessity and nearly the only joy in my life. I'm not willing to succumb to consumerism, crowd madness and the temptation of becoming a high-flyer. I'm not looking for attention nor recognition. Sometimes I slow down, lay down on the ground and just goggle around! May the Force be with you!
